

QUENCH FILTERED WATER COOLERS

Give You Immediate Savings!

JOHNS HOPKINS UNIVERSITY

*Quench Welcomes Johns Hopkins University
to discover a better drinking water solution!*

Why Quench Filtered Water Coolers?

Quench filtered drinking water coolers provide healthier, cleaner, greener and better-tasting drinking water by applying the latest filtration technology to our existing water source. No more expensive delivered bottled water, unfiltered drinking fountains or environmentally unfriendly services. You'll also be doing your part for the environment by getting rid of bulky 5-gallon plastic jugs and reducing emissions from bottled water delivery.

4 Reasons To Choose a Quench Filtered Water Cooler

- **Save Money**
One Low All-Inclusive Monthly Rate Fits Every Budget
- **More Convenient**
No Lifting, No Storing, No Hassles
- **Environmentally Friendly**
No bottles, no trucks, no monthly deliveries
- **Healthier**
No Worries about Rapid Bacteria Growth
